

2026 DATA CENTER MILESTONES

Over the past year, ESE has played a leading role in advancing data center development across Texas and beyond. Our environmental expertise has supported more than 40 proposed and operating facilities, representing several gigawatts of power capacity.

OUR SERVICES

- Phase I Environmental Site Assessments
- Wetland Delineations & Jurisdictional Determinations
- Cultural & Biological Resource Studies
- NEPA, Clean Water Act, and Section 106 Permitting Strategies
- Air Permtting
- Water Resources
- CIA/Permit Matrix

Trusted by Developers. Driven by Texas.

ESE delivers the environmental solutions you need to keep projects on track, compliant, and built for long-term success.

Why ESE Partners?

- Deep regulatory expertise with TCEQ, USACE, USFWS, SHPO, FCC, TPWD
- Proven success across digital infrastructure and renewable energy markets
- Commitment to responsibly moving business forward while protecting communities
